PURPOSE

In an effort to protect the health and safety of our employees, the Santa Clarita Valley International Charter (SCVi) has prepared a COVID-19 prevention program (“Program”) intended to provide information related to the prevention of coronavirus, describe SCVi Charter policies, procedures and practices to keep employees safe, and to help prevent the spread of coronavirus in the workplace.

This Program is applicable during the current COVID-19 public health emergency. The protocols outlined in this document will be modified based on the ongoing and updated guidance from the Center for Disease Control (“CDC”), state and local public health agencies, and SCVi operations.

The Prevention Program is intended to comply with state and local law regarding employees’ safety including Labor Code §6400 which requires that every employer must furnish employment, and a place of employment that is safe and healthful for the employees therein.

The Director of SCVi has overall responsibility for managing the SCVi COVID-19 Prevention Program. In addition, SCVi expects all supervisors to implement and maintain the Program in their departments and assigned areas.

SCOPE

This policy applies to all SCVi employees. It contains general prevention best practices, as well as SCVi policies and procedures related to COVID-19 in the workplace.

WHAT IS COVID-19

COVID-19 is caused by the coronavirus SARS-CoV-2. COVID-19 is a new disease, caused by a novel (or new) coronavirus that has not previously been seen in humans.

COVID-19 affects people in different ways. Infected people have reported a wide range of symptoms - from mild symptoms to severe illness. Some infected individuals have no symptoms at all. Symptoms may appear 2 to 14 days after exposure to the virus. Symptoms of COVID-19 may include:

- Fever
- Chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches.
- Headache
- Loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea and vomiting
- Diarrhea

Laboratory testing is necessary to confirm an infection.

COVID-19 TRANSMISSION

The virus that causes COVID-19 is thought to spread mainly from person to person through respiratory droplets produced when an infected person vocalizes, exhales, coughs or sneezes. These droplets can enter the respiratory tract (mouth, nose, and lungs) of people who are nearby and cause infection. Particles containing the virus can travel more than 6 feet, especially indoors, so physical distancing must be combined with other controls, including wearing face coverings and hand hygiene, to be effective. Spread is more likely when people are in close contact with one another (i.e., within six feet) while not wearing face coverings.

Although it is not considered to be the primary way the virus spreads, transmission may be possible by touching a surface or object that has the virus on it, and then touching their own mouth, nose, or eyes.

INFECTION PREVENTION MEASURES – CONTROL OF COVID-19 HAZARDS

SCVi, to the extent possible, will implement the following guidelines and practices to mitigate employee exposure to the coronavirus in the workplace:

1. Where possible encourage and require remote work.
2. Use of video and/or telephonic meetings, and the establishment of guidelines for maintaining a distance of at least six feet between persons, whenever possible.
3. Distribute posters, notices, and/or signage to each work site to be displayed in common areas that provide physical distancing guidelines.
4. Encourage sick employees to stay home.
5. If an employee becomes symptomatic with COVID-19 while at work, they will be asked to leave the workplace and seek medical treatment, depending on the symptoms.
6. SCVi will adhere to state guidance and local public health recommendations regarding the prearrangement of office and workplace furniture to maintain physical distancing.
7. To the extent supplies are in stock and readily available for distribution, employees will have access to appropriate hygiene products in the workplace.
8. SCVi encourages frequent hand washing with soap for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility. Hand sanitizer doesn't work if the hands are soiled so every effort must be made to wash hands before applying hand sanitizer.
9. Provide and require employees to use face coverings. Face coverings must be worn at all times, unless an SCVi employee is alone in an office or room that is not shared with others. Note: Face coverings are not considered respiratory or personal protective equipment ("PPE"), but combined with physical distancing, they help prevent infected persons without symptoms or who are pre-symptomatic from unknowingly spreading the coronavirus.
10. SCVi will maximize, to the extent possible, the quantity of outside air into our buildings and workplaces with mechanical or natural ventilation.
11. SCVi will place signs and/or instructions in common areas (for example, reception area, break rooms, public common areas, et cetera) to communicate physical distancing requirements and to provide other COVID-19 infection prevention information to the general public entering the workplace, the work site and buildings.

INVESTIGATION, IDENTIFICATION AND CORRECTION OF COVID-19 HAZARDS

SCVi takes seriously its obligation to locate, identify and correct potential COVID- 19 hazards in the workplace. SCVi will have a COVID Task Force Team that investigates and Identifies COVID hazards and works to remediate the hazard. The following will be implemented:

COVID 19 Team:

- ❑ Site Operations Director- Nicole Padovich
- ❑ Office Manager - Donna Wood
- ❑ Facilitator - Alan Kingsley
- ❑ Custodial - Mark Watson
- ❑ School Health Care Assistant - Carolina Jimenez

The Covid 19 team will:

1. Evaluate employee workspaces for potential hazards. Employees are encouraged to identify and bring to management’s attention potential COVID-19 hazards in their workspace.
2. Conduct inspections of the facility to identify and correct potential hazards that exist in common areas, high traffic areas, and other areas frequented by employees and the public.
3. Evaluate site policies, procedures, work practices, and staffing issues to determine whether any of our processes or policies can be changed or amended to reduce or eliminate COVID-19 hazards.
4. Conduct workplace specific evaluations of hazards following any positive COVID-19 case in the workplace, and identify and eliminate COVID-19 hazards.
5. In order to protect employees in the workplace it will also investigate each positive COVID-19 case to help identify those employees who were in close contact with the infected employee, and require all those potentially exposed to quarantine as required by law.
6. Regularly evaluate the workplace for compliance with this program.
7. Unsafe and unhealthy hazards, work conditions, practices, policies or procedures will be documented and corrected in a timely manner based on the severity of the hazards. Correction priority and correction times will be based on the immediacy of the unsafe or unhealthy hazard.

EMPLOYEE RESPONSIBILITIES

During the COVID-19 public health emergency, SCVi employees have a collective responsibility to ensure the protection of all people in the workplace, to comply with SCVi policies and the latest local public health guidelines to mitigate coronavirus risk to themselves and anyone visiting the work site.

Employees have the following affirmative responsibilities:

1. Employees must self-screen for COVID-19 symptoms prior to entering the facility for their shift using their site’s wellness screening form. Employees should stay home and seek medical treatment if they experienced any of the following symptoms in the past 48 hours:
 - fever of 100.4 degrees fahrenheit or higher
 - feeling feverish (chills/sweating)
 - new cough (different from baseline)
 - shortness of breath

- muscle or body aches
- diarrhea or vomiting
- new loss of taste or smell

Employees must immediately report any symptoms of COVID-19 they experience whether the symptoms developed while at work or elsewhere. Employees must also promptly disclose positive COVID-19 tests.

2. An employee must stay home if they are sick, follow public health agency guidelines, and contact their supervisor or manager for further instructions.
3. Employees who are out ill with fever, cough, shortness of breath, or other acute respiratory symptoms that affect normal breathing who have not been tested for the COVID-19 virus or who have tested negative for the COVID-19 virus, must consult with their physician and their manager before physically returning to work.
4. Employees must cooperate with SCVi in any investigation related to the onset of illness, date of symptoms, others with whom the employee had close contact, and coronavirus testing among other topics. The investigation will help SCVi to identify employees who may have been exposed and quarantine them so there is no further workplace exposure.
5. Employees who test positive for the COVID-19 virus must not return to work until the following occurs:

When Symptomatic

- At least 10 days have passed since COVID-19 symptoms first appeared
- At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever and reducing medications;
- COVID-19 symptoms have improved.

When Asymptomatic

Employees who test positive, but never developed COVID-19 symptoms shall not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.

6. Employees who return to work following an illness must promptly report any recurrence of symptoms to their immediate supervisor.
7. Employees shall practice physical distancing, wear face coverings and remain at least 6 feet apart when practicable. Ways to maintain physical distancing include working from home when practicable, and by using video or telephonic meetings as much as possible.
8. Employees must avoid shared workspaces (desks, offices, and cubicles) and work items (phones, computers, other work tools, and equipment) whenever possible. If employees must share workspaces, clean and disinfect shared workspaces and work items before and after use.
9. Employees shall wash hands with soap and water for at least 20 seconds and/or use hand sanitizer after interacting with people and after contacting shared surfaces or objects.
10. Employees shall cover coughs and sneezes, and avoid touching eyes, nose, and mouth with unwashed hands.
11. Employees must avoid sharing personal items with co-workers (for example, dishes, cups, utensils, towels).
12. Employees shall notify their manager or supervisor if any washing facilities do not have an adequate supply of suitable cleaning agents, water, single-use towels, or blowers.

13. Employees shall not bring cleaning products and/or disinfectant into the workplace that have not been approved by SCVi.

PERSONAL PROTECTIVE EQUIPMENT

While engineering and administrative controls are considered more effective in minimizing exposure to COVID-19, personal protective equipment (PPE) may also be needed to prevent certain exposures. While correctly using PPE can help prevent some exposures, it should not take the place of other prevention strategies. Examples of PPE include gloves, goggles, face shields, face masks, and respiratory protection, when appropriate. During the outbreak of infectious diseases, such as COVID-19, recommendations for PPE specific to occupations or job tasks may change depending on the updated risk assessments for workers, and information on PPE effectiveness in preventing the spread of COVID-19.

Face Covering

- Employees, learners, and anyone visiting sites will make sure to wear a fresh face covering everyday.
- Cloth face covering should be washed and cleaned after a day's use.
- Families are reminded to wash and clean their child's face covering.
- Face covering must cover both mouth and nose.
- SCVi will supply all necessary and required PPE, including face coverings.
- SCVi will clean any soiled PPE and replace any damaged PPE.
- If employees wish to use additional PPE, they should initiate the request with their direct supervisor.
- Signs will be posted at all entrances and throughout the site to remind everyone on site to wear a face covering.
- A medical grade mask will be provided to any employee caring for sick children or who has close contact with any child with a medical condition that precludes the child's use of a cloth face covering.

Face Shields

- Employees that work one on one with learners in close proximity will be provided a face shield.
- Employees working with a learner in a one on one setting should keep their face shield on at all times.

Clear Plexiglass Barriers

- Employees doing individual testing may utilize a plexiglass barrier during testing.
- Front offices will be provided plexiglass barriers as an added measure of protection when face to face interactions occur.

PHYSICAL DISTANCING

SCVi will maintain signs and notices to ensure physical distancing is in place.

- SCVi has determined the maximum number of employees based on maintaining six feet of social distancing.
- The maximum number of learners in a cohort classroom to maintain social distancing is twelve with an additional two adults allowed. (Per the LACPHD T1 Appendix updated 12/28/2020)

- All work areas are configured for six feet of social distancing.
- SCVi has looked at room usage and determined the maximum capacity based on 6 feet of social distancing..
- Social distancing markers will be placed at the entrances to sites.
- SCVi has determined a flow of traffic pathways, that will be indicated by arrows and social distancing markers highlighting the flow of traffic.
- Staff will be deployed in designated areas during high traffic times to help learners maintain six feet of social distancing.
- Stairways will be designated with up and down paths of travel.
- Elevators will have a maximum capacity of one occupant, unless there is a need to assist another person.

Hygiene Practices

SCVi places a high priority on good hygiene practices and will encourage all employees and learners to practice the following:

- Ethyl alcohol-based (contains at least 60% ethanol) hand sanitizer will be available at all entrances.
- At arrival, everyone will be encouraged to use hand sanitizer prior to entering the site.
- Hand washing will be available on campus. (Bathrooms/Break Rooms/Classrooms if equipped/ Handwashing stations)
- Employees and learners will be given frequent opportunities to wash their hands.
- Employees will model good hand washing techniques to learners including:
 - Using soap
 - Rubbing thoroughly
 - Washing for 20 seconds
 - drying hands, for a safe and complete practice

CLEANING AND DISINFECTION POLICY AND PRACTICE

SCVi recognizes that high traffic and high touch common areas in the workplace need frequent cleaning and disinfecting to limit the spread of the COVID-19 virus.

SCVi will assign personnel and establish routine schedules to clean and disinfect common areas and objects in the workplace. This includes, but is not limited to, copy machines, containers, counters, tables, desks, chairs, benches, door handles, knobs, drinking fountains, refrigerators, restroom and bathroom surfaces, and trash cans.

The process of disinfecting includes providing disinfecting products that are EPA approved for use against the virus that causes COVID-19 and following the manufacturer's instructions for all cleaning and disinfection products (for example, safety requirements, PPE, concentration, contact time).

Disinfectant Supplies:

- Work areas will be provided with disinfectant wipes.
- Work areas, break rooms, entrances, and high traffic areas will be provided with Ethyl alcohol-based (contains at least 60% ethanol) hand sanitizer.

- High touch items like drinking fountains will be out of use.
- Playground equipment may be used if it is disinfected between cohort use.
- Only approved EPA cleaning products for school will be used.
- Custodial and other staff responsible for cleaning and disinfecting school surfaces and objects are trained on manufacturer's safety data sheets, Cal OSHA requirements for safe use, and as required by the Healthy Schools Act, as applicable.
- Custodial staff and other staff responsible for cleaning and disinfecting are equipped with appropriate personal protective equipment, including gloves, eye protection, respiratory protection and other appropriate protective equipment as required by the product.
- The EPA dwell time for our current disinfectant used by custodial staff is between 2-10 minutes.
- All cleaning products are kept out of children's reach and stored in a space with restricted access.
- Ventilation is maximized during cleaning and disinfecting to the extent feasible. If using air conditioning, use the setting that brings in fresh air. Replace and check air filters and filtration systems regularly, to ensure optimal air quality.

WORK SITE SAFETY MEASURES

Arrival and Dismissal

SCVi will incorporate social distancing protocols to keep staff and learners safe at arrival and dismissal. These protocols include:

- Prior to entering the campus, parents or guardians will use Health Attend app to complete a wellness check for their child;
- Site assigned personnel will monitor completion and answers of the wellness survey;
- Signs will be posted to remind staff and learners to wear a mask, social distance, and what are symptoms of COVID-19;
- Social distancing markers will be in place to keep staff and learners 6 feet apart;
- Ethyl alcohol-based hand sanitizer (contains at least 60% ethanol) will be in place at all entrances to the site.

Meetings

- All meetings should take place via teleconferencing (ie. Zoom, Google Meets).
- Digital Files are to be used as much as possible to reduce face to face contact.

Workrooms, Production Centers, and Shared Copiers

- Workroom maximum capacity and marked at the entrance.
- After using copiers wipe down the area touched with provided disinfectant wipes.
- Commonly shared items, like pens, will be removed at this time.
- When using any other equipment or work table, wipe down before and after use.

Tools/Supplies/Equipment

- Employees and learners should avoid sharing items.
- To the extent possible, each employee will be provided with their own tools, supplies, or equipment needed to complete their job.

- If any tools, supplies, or equipment must be shared, it will be disinfected before and after use.

Important Hygiene Practices

- Wash hands frequently. Wash stations are available throughout the campus.
- Utilize Ethyl alcohol-based hand sanitizer that contains at least 60% ethanol. Hand sanitizer is available in common areas, workroom, breakroom, and entrances/exits.

Visitors

- It would be best practice to avoid having onsite visitors.
- If there is a need for business to be conducted in person, it is best practice to conduct business outside the main office.
- All visitors must:
 - Go through a verbal wellness screening
 - Office staff will ask screening questions prior to letting visitor into the site
 - Screening questions:

Have you had any of the following symptoms: fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, fever of 100.4 or higher?

- Have you been in contact with anyone that has tested positive for COVID in the past 10 days?
- Have you been diagnosed with COVID in the past 10 days?
- If the visitor answers no to all of the questions, they will be allowed in and check in using the lobby guard system.
- Limit movement on campus or designate meeting to a single building/room
- Visitors will be provided instructions regarding maintaining physical distancing and the required use face coverings when around others
- Visitors will sign out when they leave

Cafeteria

- “Grab and Go” meals will be provided through a drive thru service.

Non-school Facility Use

- Will be suspended until further notice

EXPOSURE MANAGEMENT PLAN

When there is a suspected or confirmed case of COVID-19, the site will:

- During operational hours:
 - Send an employee home or utilize the isolation room.
 - Learners will wait in the isolation room until they can be picked up.
 - Any employee caring for sick children, or who has close contact with any child with a medical condition that precludes the child’s use of a cloth mask, will be provided a medical grade mask.
 - Relocate staff and learners in the infected area until it can be disinfected.
- After Hours:
 - The site will instruct the employee/learner to quarantine/isolate at home.
- Identify close contacts to the case through investigation. The Director and/or COVID 19

Team will utilize the iLEAD COVID Response/fillable form see appendix A.

- Immediately notify exposed employees and families of learners. (Links with information on isolation and quarantine will be in the notification letter.)
- Assure access to testing for all exposed individuals within the school as the basis for further control measures. Links to testing facilities will be in the employee or parent notification letter.
- Report all COVID-19 exposures at the school to the Department of Public Health.
 - Redcap Reporting Portal <https://dphredcap.ph.lacounty.gov/surveys/?s=RERMHDTWAR>
 - Completing the COVID-19 Case and Contact Line List for the Educational Sector http://publichealth.lacounty.gov/acd/Diseases/EpiForms/COVID_OBlinelist_Education_Sector.xls

RESPONDING TO CONFIRMED OR SUSPECTED COVID-19 CASES

When required, SCVi will consult with state and local public health agencies for mitigation practices and responsible protocols. SCVi will follow the California Health Department strategies listed below for returning employees to work.

The following are considered minimum criteria for return to work and some variation may occur depending on individual cases, our local public health department, and unique circumstances.

A Negative COVID-19 test is not required in order to return to work.

Symptomatic Positive:

Employees with symptoms who are laboratory confirmed to have COVID-19.

1. At least 24 hours have passed since resolution of fever without use of fever reducing medications; and
2. At least 10 days have passed since symptom onset; and
3. Other symptoms have improved.

Asymptomatic Positive:

Employees who have never had symptoms and are laboratory confirmed to have COVID-19. A minimum of 10 days have passed since the date of their first positive COVID-19 tests being administered. If symptoms develop then the criteria for Symptomatic Positive cases will apply.

Symptomatic Negative:

Employees who had symptoms of COVID-19 but test results returned negative. Use the same criteria as Symptomatic Positive cases.

Asymptomatic Negative:

Employees who never had symptoms but were tested due to a close contact with a laboratory confirmed case patient and were negative. Employees should quarantine at home for 10 days after the last known contact with the case-patient. Symptoms can develop even after testing negative within 10 days of exposure. The local health department and Cal/OSHA may consider allowing an earlier return to work only if an employee in a critical infrastructure industry in which the essential operations of the workplace would be compromised by quarantine of the employee and no alternate staff can perform the role. It must be shown that the removal of the

employee would create an undue risk to a community's health and safety.

Symptomatic Untested:

Employees who have symptoms of COVID-19, and were not tested. Testing is encouraged. If an employee cannot be tested or refuses to be tested, use the same criteria for return to work as Symptomatic Positive cases.

Asymptomatic Untested:

Employees who had close contact to a laboratory confirmed case at work, home, or in the community and do not have symptoms or employees who refuse or are unable to be tested after close contact with a laboratory-confirmed case, despite recommendation for testing from local health department or healthcare provider, and do not have symptoms. Employees should be quarantined at home for 10 days after the last known contact with the case. Testing is highly recommended; if testing hasn't occurred the local health department and Cal/OSHA may consider allowing an earlier return to work only if an employee in a critical infrastructure industry in which the essential operations of the workplace would be compromised by quarantine of the employee and no alternate staff can perform the role. It must be shown that the removal of the employee would create an undue risk to a community's health and safety. If symptoms develop then the criteria for Symptomatic Positive cases will apply.

If an employee tests positive for COVID-19, SCVi will immediately inform co-workers of their possible exposure to COVID-19 in the workplace but maintain confidentiality as required by the Americans with Disabilities Act (ADA) and the Fair Employment and Housing Act (FEHA). SCVi will also investigate any confirmed COVID-19 illness to determine and mitigate any work-related factors that may have contributed to the risk of infection.

SCVi will establish, implement, and maintain policies and procedures for COVID-19 testing of staff who had a COVID-19 exposure, who have COVID-19 symptoms, or as recommended by the local health department. SCVi will provide no cost testing during work hours to all employees who must be quarantined and excluded from the workplace as required by law.

Any school currently open is subject to the minimum testing requirement standards established by Cal/OSHA. These standards include response testing for exposed cases and outbreak testing for everyone weekly until no longer considered an outbreak. Please refer to Cal/OSHA guidance for complete details.

The school testing section will be updated as needed based on further guidance from CDPA, consultation with labor, and/or legislative action.

Cleaning and Disinfecting Following a Confirmed COVID-19 Case.

1. Temporarily close the general area where the infected employee or guest worked/visited until cleaning has been completed.
2. If possible, open outside doors and windows and use ventilating fans to increase air circulation in the area. Wait 24 hours or as long as practical before cleaning and disinfecting the area.
3. Conduct deep cleaning of the entire general area where the infected employees worked and

may have been, including break rooms, restrooms and travel areas with a cleaning agent approved for use by the EPA against the coronavirus.

4. Custodial personnel cleaning the area must be equipped with proper personal protective equipment for COVID-19 disinfection (disposable gown, gloves, eye protection, or mask, if required).

SYSTEM FOR COMMUNICATION

Communication between employees and SCVi on matters relating to COVID-19 mitigation and response is important to ensure employees' safety while in the workplace. Therefore, SCVi has a communication system that is intended to accomplish clear and concise exchange of information by providing a single point of contact for managers and supervisors. Employees are encouraged to freely communicate with their supervisors and managers with regard to coronavirus symptoms, possible exposures, workplace concerns, and suggestions for correction of potential hazards without fear of reprisal.

1. All SCVi employees are encouraged to report to their immediate manager or supervisor concerns regarding COVID-19 mitigation practices or possible COVID-19 exposure in the workplace.
2. Directors and supervisors who, after assessing the concern, determine that additional guidance or assistance is required shall contact Natasha Baugh, Director of Employee Services, who will assess the report and notify essential personnel for an appropriate response.
3. If an employee has a disability, medical, or other condition that puts them at increased risk of severe COVID-19 illness and an accommodation is needed, they are encouraged to report it to Natasha Baugh, Director of Employee Services. SCVi will evaluate the request and determine, with input from the employee and health care provider, whether the employee can be accommodated.
4. When required by law, SCVi will provide COVID-19 testing to potentially exposed employees.

*See Communications Appendix for communications procedures and letter templates.

MULTIPLE COVID-19 INFECTIONS AND COVID-19 OUTBREAKS

SCVi will adhere to the following policies and practices should the workplace experience a COVID-19 outbreak or major outbreak.

A COVID-19 outbreak is defined as 3 or more cases of COVID-19 in a 14 day period.

A major COVID-19 outbreak is defined as 20 or more cases of COVID-19 in a 30 day period.

1. SCVi will provide the legally mandated COVID-19 testing to all exposed employees in the workplace except those who were not present during the period of an outbreak. The testing will be provided at no cost to the employees and will occur during working hours. An NSD employee is considered an essential worker. Essential Workers are offered free testing at LA County locations. LA County Testing Sites can be found: <https://covid19.lacounty.gov/testing/>
2. All employees will be tested as frequently as required for a COVID-19 outbreak or a major COVID-19 outbreak. Additional testing will be provided when deemed necessary by Cal/OSHA.
3. We will quarantine and exclude all COVID-19 cases and those exposed to the COVID-19 cases as set forth above in Responding to Positive or Suspected COVID-19 Cases in the Workplace.
4. SCVi will immediately investigate and determine possible COVID-19 hazards that may

have contributed to the outbreak in accordance with **Investigation**, Identification, and Correction of COVID-19 Hazards and Responding to Positive or Suspected COVID-19 Cases in the Workplace.

5. SCVi will perform a review of its COVID-19 policies, procedures, and controls and implement changes where needed. The investigation and review will be documented and include review of:
 - a. Leave policies and practices to insure employees are encouraged to remain home when sick;
 - b. COVID-19 testing process;
 - c. Insufficient outdoor air;
 - d. Lack of physical distancing, face coverings or use of other PPE;
 - e. Evaluation of mechanical ventilation, and, if possible, filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the system. We will evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other cleaning systems would reduce the risk of transmission;
 - f. Determine the need for additional respiratory protection;
 - g. Determine whether to halt some or all operations until the COVID-19 hazard has been corrected;
 - h. Implement any other control measures as required by Cal/OSHA.
6. Notify the local health department as required by law.

POTENTIAL BENEFITS AVAILABLE TO EMPLOYEES WHO MUST QUARANTINE

January 2021

The CDC, CDPH, and Los Angeles County Health Agency all provide for a quarantine period after a confirmed exposure to Covid-19, a positive test, or infection with Covid-19 symptoms, as well as after nonessential travel over 120 miles from home, and on return from travel out of the state and out of the country. If an NSD employee is required to quarantine, there are a number of paid and unpaid leaves available, depending on the circumstances.

Although the Families First Coronavirus Response Act leaves have expired, effective December 31,2020, employees are encouraged to consult these sources as to their specific circumstances:

REPORTING, RECORDKEEPING, AND ACCESS

SCVi is committed to following all local and state law requiring reporting, recordkeeping, and access to records. It is our policy to:

1. Record and track all COVID-19 cases, including the date of a positive test, as required by law. The record will be made available to employees, authorized employee representatives, or as otherwise required by law. All identifying information will be removed prior to providing access.
2. Report information about COVID-19 cases to the local health department when required by law and to provide the local health department all requested information.
3. Immediately report to Cal/OSHA any COVID-19 related serious illness or death, as defined by

law, occurring in the workplace.

4. Keep and maintain records of SCVi's efforts to implement the written COVID-19 Prevention Program.
5. Make the COVID-19 Prevention Program available to employees, authorized employee representatives, and to Cal/OSHA immediately upon request.

EMPLOYEE TRAINING

SCVi will provide information and training in the general description of COVID-19, symptoms, when to seek medical attention, how to prevent the spread, and the employer's procedures for preventing its spread at the workplace. The training may consist of reviewing written documentation, in-person presentation, online video training and/or acknowledgment of receipt of SCVi COVID-19 prevention program.

Employees will be notified of the training and all employees are required to participate.

All Employees will receive a copy of this protocol via paycom app and it will be posted on school websites.

Coronavirus (COVID-19)

Response

Plan

Use this Response Plan to guide the actions you need to take and the communications you'll need to send if your site is impacted by COVID-19.

Choose the Scenario that Best Fits Your Situation

Direct COVID-19 Illness Scenarios

- [A staff member or learner has been presumed positive or has tested positive for COVID-19](#)
- [A staff member or learner is being tested for COVID-19](#)
- [A staff member or learner's household member has symptoms or tested positive](#)
- [A staff member or learner is in mandatory isolation](#)
- [A staff member or learner is in](#)

[voluntary isolation](#)

Other COVID-19 Scenarios

- [The local/federal government or health department has mandated that our site must close](#)
- [A school in my community has closed or there are confirmed/presumed cases of COVID-19 in the community](#)
- [I'm worried I don't have enough staff](#)

Don't see your scenario? Check the [Home quarantine Instructions](#) mail ERT@ileadschools.org.

A staff member or learner has been presumed positive or tested positive for COVID (Assume your site maybe closing, but follow directions below)

<p>Site Leadership/ Illness Prevention Team Actions</p>	<ul style="list-style-type: none"> ❑ Email Emergency Response Team at ERT@ileadschools.org letting them know you had a positive test and complete the fillable form with all necessary details (if you did not submit the form when you learned they were sick or being tested). ❑ Call your local Health Department (877)777-5799 for notification and guidance. ❑ If an employee has tested positive provide an update to the email ERT@ileadschools.org. ❑ If you don't get immediate response from DPH, close area impacted until notified. ❑ Inform staff and families using the family letter communication below (if applicable). ❑ Note: The site and/or the classroom with immediate contact may be required to remain closed for an extended period (up to 14 days). Follow the guidance of your local health department and contact ERT@ileadschools.org to determine closure details. ❑ Illness Prevention Team shall monitor for illness and inform the Site Director of any additional people showing symptoms or getting tested and results. ❑ Notify Learners' Families and share family letter with Cohort Directly Impacted and Letter 2 to Cohorts not Directly Impacted (if applicable).

Template COVID-19 Parent Notification Letter of a Positive Case Sent from Health Attend

Date

Dear Parents,

We would like to inform you that we have recently received information about a confirmed case of Coronavirus Disease 2019 (COVID-19) in a member of your child's classroom cohort at **SCVi**.

Per the County of Los Angeles Department of Health, all contacts of a confirmed positive COVID-19 case must quarantine for 14 days from the date of last exposure to the infectious person. (Please note, the L.A. County quarantine requirement is more restrictive than the CDC guidance.) L.A. County defines a school contact as "anyone who has been within 6 feet of a confirmed COVID-19 case for 15 minutes or more in a 24-hour period (cumulative); is part of a classroom cohort with the infected person; has had direct contact with bodily fluids/secretions of a positive case". This definition applies if the exposure occurred at any time during the infectious period, which is considered two days before the onset of symptoms (or positive test if there are no symptoms) and 10 days beyond, and applies even if face coverings are worn.

Because your child meets the above criteria, they must quarantine for 14 days from the date of last exposure to the infected person (**date**), to prevent possible illness in new persons. You may also be contacted by the L.A. County Department of Public Health for contact tracing purposes. During the 14 days, your child should stay home, stay away from others, and their health should be monitored. Your child may resume usual activities on (**date**), but should continue to take precautions to reduce risk (i.e. social distancing, frequent handwashing, and wearing a mask when around others).

All persons with an exposure should get tested (whether they have symptoms or not) and report their results to the school or district nurse. Testing is covered by insurance at your child's personal healthcare provider or at a community-testing site scheduled through covid19.lacounty.gov/testing. Individuals who need assistance finding a medical provider, can call the Los Angeles County Information line 2-1-1, which is available 24/7.

Others in your household do not need to quarantine at this time. If your child has a positive test or begins to show symptoms of illness (fever, cough, shortness of breath, headaches, body aches, loss of taste or smell, sore throat, and/or diarrhea/vomiting), they should then isolate from others in your household for 10 days and those in your household would need to quarantine. If at any time your child shows severe symptoms (difficulty breathing, severe fatigue or weakness) seek medical advice or call 911 for further guidance.

While we understand that you may have questions about who may have tested positive, we are prohibited by law from sharing that information. We want to reinforce that SCVi has taken every precaution to reduce the risk of transmission, including requiring daily screening for adults and learners, requiring employees and learners to wear masks, disinfecting our sites, and reducing the number of learners in any one group.

We are also taking these additional steps in response the recent case:

- Notifying LACDPH and following their protocols and guidelines
- Notifying close contacts of the case
- Custodians are conducting deep cleaning and disinfecting the exposed locations

As the Coronavirus situation in our country and our community continues to develop, we urge you to follow all guidelines and take the necessary precautions to limit coronavirus spread in our community. Ensuring that you and our educational environment is safe is of greatest importance to us. We appreciate your cooperation and encourage you to reach out with any questions or concerns.

For additional questions about Coronavirus in Los Angeles County, please visit the LA County Department of Public Health coronavirus webpage at <http://www.publichealth.lacounty.gov/media/Coronavirus/>.

For additional information on Home Isolation instructions visit: <http://publichealth.lacounty.gov/acd/ncorona2019/covidisolation/>

Template COVID-19 Staff Notification Letter of a Positive Case- sent from Health Attend

Date

Dear Staff,

We would like to inform you that we have recently received information about a confirmed case of Coronavirus Disease 2019 (COVID-19) at SCVi in a person you may have had contact with.

Per the County of Los Angeles Department of Health, all contacts of a confirmed positive COVID-19 case must quarantine for 14 days from the date of last exposure to the infectious person. (Please note, the L.A. County quarantine requirement is more restrictive than the CDC guidance.) L.A. County defines a school contact as “anyone who has been within 6 feet of a confirmed COVID-19 case for 15 minutes or more in a 24-hour period (cumulative); is part of a classroom cohort with the infected person; has had direct contact with bodily fluids/secretions of a positive case”. This definition applies if the exposure occurred at any time during the infectious period, which is considered two days before the onset of symptoms (or positive test if there are no symptoms) and 10 days beyond, and applies even if face coverings are worn.

Because you meet one or more of the above contact criteria, you must quarantine for 14 days from the date of last exposure to the infected person (date), to prevent possible illness in new persons. You may also be contacted by the L.A. County Department of Public Health for contact tracing purposes. During the 14 days, you should stay home, stay away from others, and monitor your health. You may resume usual activities on (date), but should continue to take precautions to reduce risk (i.e. social distancing, frequent handwashing, and wearing a mask when around others).

All persons with an exposure should get tested (whether they have symptoms or not) and report their results to the school or district nurse. Testing is covered by insurance at your personal healthcare provider or at a community-testing site scheduled through covid19.lacounty.gov/testing. Individuals who need assistance finding a medical provider, can call the Los Angeles County Information line 2-1-1, which is available 24/7. Testing is also available through your insurance provider.

Others in your household do not need to quarantine at this time. If you receive results of a positive test and/or begin to show symptoms of illness (fever, cough, shortness of breath, headaches, body aches, loss of taste or smell, sore throat, and/or diarrhea/vomiting), you should then isolate from others in your household for 10 days and those in your household would need to quarantine. If at any time you experience severe symptoms (difficulty breathing, severe fatigue or weakness) seek medical advice or call 911 for further guidance.

While we understand that you may have questions about who may have tested positive, we are prohibited by law from sharing that information. We want to reinforce that SCVi has taken every precaution to reduce the risk of transmission, including requiring daily

screening for adults and learners, requiring employees and learners to wear masks, disinfecting our sites, and reducing the number of learners in any one group.

We are also taking these additional steps in response the recent case:

- Notifying LACDPH and following their protocols and guidelines
- Notifying close contacts of the case
- Custodians are conducting deep cleaning and disinfecting the exposed locations

**Template COVID-19 General Notification Letter of a Positive Case
Sent from Health Attend**

Date

Dear **staff/parent**,

We would like to inform you that we have recently received information about a confirmed case of Coronavirus Disease 2019 (COVID-19) in at least one learner/staff member at **SCVi**. Although you are not identified as a close contact of the current case, we wanted to notify you so that you are aware.

While we understand that you may have questions about who may have tested positive, we are prohibited by law from sharing that information. We encourage you to contact your healthcare provider and/or the public health department for guidance if you have any concerns, based on your individual circumstances.

We want to reinforce that SCVi has taken every precaution to reduce the risk of transmission, including requiring daily symptom screening for adults and learners, requiring employees and learners to wear masks, ensuring physical distancing, disinfecting our sites, and reducing the number of learners in any one group.

We have also taken the following steps in response to the recent case:

- Notified the L.A. County Department of Public Health Department and are following all guidance and protocols.
- Notified all identified close contacts that they need to quarantine and provided information on free testing.
- Custodians are conducting deep cleaning and disinfecting the exposed locations.

As the Coronavirus situation in our country and our community continues to develop, we urge you to be proactive about reducing the spread, and take precautions to limit the spread.

How You Can Help:

- Avoid crowds and stay 6 feet away from others who are not in your immediate household.
- Wear a clean mask whenever you are around others and avoid touching your mask (and face).
- Be diligent about daily symptoms and temperature screenings before coming onto campus. Stay home if you have *any* symptoms of illness or if you have been in close contact with someone diagnosed with COVID-19.
- Wash your hands often with soap and water for at least 20 seconds. (Sing the Happy Birthday song to help know when it has been 20 seconds). If soap and water are not available, use alcohol-based hand sanitizers that contain at least 60% alcohol.
- Cover coughs and sneezes with a tissue, and then dispose of the tissue and clean your hands immediately. If you do not have a tissue, use your elbow or sleeve (not your hands) to cover coughs and sneezes.
- Avoid contact with people who are sick, and don't share food, drinks, or utensils.

- Clean and disinfect frequently touched objects and surfaces regularly.

Public Health Guidelines:

- All confirmed COVID-19 cases should be isolated for 10 days from the date of symptom onset (or date of positive test if no symptoms) and until fever-free for 24 hours and symptom free (without medication).
- All close contacts of a confirmed case should quarantine for 14 days since the date of last contact with the infected person, if the exposure occurred within the infected person's isolation period or two days before. (Please note the L.A. County requirement is more restrictive than the updated CDC guidance.)
- A close contact is defined as anyone who has been within 6-feet of a confirmed COVID-19 case for 15 minutes or more in a 24-hour period (cumulative); is part of a classroom cohort with the infected person; and/or has had direct contact with bodily fluids/secretions of a positive case. This definition applies even if face coverings are worn.

Ensuring that you and our educational environment is safe is of greatest importance to us. We appreciate your cooperation and encourage you to reach out with any questions or concerns. For additional questions about Coronavirus in Los Angeles County, please visit the [LA County Department of Public Health coronavirus webpage](http://www.publichealth.lacounty.gov/media/Coronavirus/) at <http://www.publichealth.lacounty.gov/media/Coronavirus/>

If you have any questions or concerns please contact me directly at (661)705-4820 or email me at director@scvi-k12.org

Sincerely,

Template for potential exposure to child with symptoms (unconfirmed case)

DATE

Dear Parents,

We would like to inform you that we have recently received information about a learner with symptoms consistent with Coronavirus Disease 2019 (COVID-19) in your child's classroom. Your child may have had an exposure to this possible case, even while wearing a face covering.

Per L.A. County Department of Health guidelines, a potentially infected child is defined as a child having one or more symptoms consistent with possible COVID-19 infection (fever greater than or equal to 100.4; new cough [different from baseline]; diarrhea or vomiting). A contact of a potentially infected child is defined as anyone at the facility who was in close contact with the child (within 6 feet for >15 cumulative minutes in a 24-hour period); had direct contact with bodily fluids/secretions from a potentially infected child; or is a member of a classroom or cohort with exposure to a potentially infected child. Per L.A. County guidelines, contacts of a potentially infected case may remain at school. If at any time we receive confirmation of a confirmed positive case, you will be notified and your child may be asked to quarantine.

In the meantime, please continue to screen your child daily for symptoms of illness, wash hands frequently, wear a mask, maintain 6-feet of distance from others, and limit contact with those who are not in your household. If at any time your child begins to develop symptoms consistent with COVID-19, they should begin self-isolation for 10 days. For detailed Home Isolation Instructions from the county visit www.publichealth.lacounty.gov/acd/ncorona2019/covidisolation/. If symptoms become severe, seek medical advice for further guidance.

Ensuring that you and our educational environment is safe is of greatest importance to us. For additional questions about Coronavirus in Los Angeles County, please visit the LA County Department of Public Health coronavirus webpage at <http://www.publichealth.lacounty.gov/media/Coronavirus/>

If you have any questions or concerns please contact me directly at (661)705-4820 or email me at director@scvi-k12.org

Sincerely,

Small Cohort Closure Letter Parent

Date

Dear Parents/Guardians of SCVi,

We would like to inform you that the Los Angeles County Department of Public Health has determined that SCVi Small Cohort Name will be closed as a precaution for 14 days due to insert number confirmed, non-linked/linked cases of COVID-19. This will mean that on-campus instruction will resume on Date.

This is a closure of the physical campus, not a stoppage of instruction. All classes will continue online throughout the physical school closure. Small cohorts that have been receiving in-person instruction will be moved to online learning, and facilitators will provide families information on when to log in to online sessions.

We thank you for your understanding through this temporary site closure. Throughout this pandemic we have worked proactively with the Los Angeles County Department of Public Health and appreciate their continued partnership to keep learners and staff safe.

While we understand that you may have questions about who may have tested positive, we are prohibited by law from sharing that information with you. As a procedure, we have notified all known individuals who had close contact with those who have tested positive and those individuals have been instructed to quarantine.

If you have not been notified to quarantine, then there is no requirement to do so from the Department of Public Health.

We want to reinforce that the District has taken every precaution to reduce the risk of transmission and follow all safety protocols.

While the school is closed, we would encourage families to contact the school office through (661)705-4820. They will be able to answer questions and relay messages to the staff who will be working from home. We are here for you and we thank you for your support.

Sincerely,

Small Cohort Closure Letter Staff

Date

Dear SCVi Staff,

We would like to inform you that the Los Angeles County Department of Public Health has determined that SCVi Small Cohort will be closed as a precaution for 14 days due to Number confirmed, non-linked/linked cases of COVID-19. This will mean that on-campus instruction will resume on Date.

This is a closure of the physical campus, not a stoppage of instruction. All classes will continue online throughout the physical school closure. Small cohorts that have been receiving in-person instruction will be moved to online, and facilitators will provide families information on when to log in to online sessions.

We thank you for your understanding through this temporary site closure. Throughout this pandemic we have worked proactively with the Los Angeles County Department of Public Health and appreciate their continued partnership to keep learners and staff safe.

While we understand that you may have questions about who may have tested positive, we are prohibited by law from sharing that information with you. As a procedure, we have notified all known individuals who had close contact with those who have tested positive, and those individuals have been instructed to quarantine.

If you have not been notified to quarantine, then there is no requirement to do so from the Department of Public Health.

We want to reinforce that the District has taken every precaution to reduce the risk of transmission and follow all safety protocols.

Thank you for your continued dedication to your learners.

Sincerely,
